Patient Satisfaction – Focus in 2011

Patient satisfaction is a key component of the Blue Ribbon Award issued by BCBS to medical groups. The award is based upon results from the annual BCBS Member Satisfaction Survey. Both the physician and office staff play a key role in fostering a positive patient experience. Some tips for consideration: 1) Ask patients before they leave whether the visit met their expectations. If it did not, what could have been done to improve the experience? 2) Issue an exit survey and ask that it be completed and dropped in a locked box in the reception area or mailed to you in a stamped, self-addressed envelope. Keep the survey simple. (See enclosed sample) 3) Thank patients for their visit and make outbound calls within a day or two to follow up on any questions or concerns expressed by patients. 4) Hold weekly staff meetings and share the results with staff. Ask staff what could be done differently to improve the overall operations of the practice.

NammNetIL Assessment

Enclosed is a NammNetIL.com Assessment Form. Please take time to complete the form and return it via fax. By the end of the second quarter 2011, direct access to EzNet will be granted through the provider portal, NammNetIL only. Staff currently using EzNet for eligibility, copayment verification, claims status and/or referral management will need an active login for NammNetIL. Your readiness is being assessed this month to ensure training requirements.

Namm Help Desk

We are excited to bring you this new feature to expedite your technical needs. If you experience difficulty logging into EzNet, you are encouraged to contact the NAMM Help Desk at **708-432-2008** or by email at help.desk@namm-il.com for assistance. The Help Desk will address your needs in a timely manner. Examples of reasons to contact the Help Desk are; password resets, unable to view all necessary screens, or need access to more screen options. The Help Desk is available M-F from 8:30am to 5:00pm. Expected turnaround time to respond to your request is one business day.

Pharmacy Program Updates

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the Rx market, several revisions have been made to the BCBSIL Formulary effective April 1, 2011. Enclosed you will find a list of the Brand Name Drugs moving to the highest out-of-pocket payment level. Keep in mind, generic prescribing may be a viable option for your patients to reduce their out-of-pocket cost. As BCBSIL continues to raise the bar for Generic performance, we strongly encourage providers to recommend a cost saving option to their patients.

Upcoming Holiday Hours

In observance of Good Friday, the NAMM / HPH office hours are as follows:

Friday, April 22 2011 – Closed

Emergency protocol should be followed during this time. Members should ONLY be referred for URGENT SERVICES. Please reference your HPH Directory for participating providers. Services requiring pre-authorization should be submitted via the EZNet electronic referral process or telephonically on Tuesday, the next business day following the Holiday when the office will reopen.

Claims Payment Adjustment Codes

Effective March 1, 2011, the adjustment code *M81 – You are required to code to the highest level of specificity for the diagnosis code* - was added to the HIPAA standard adjustment codes. Please reference the enclosed updated list of claims payment adjustment codes with full code descriptions that are utilized by NAMM in the processing of your claims.

Increasing Childhood Immunization Rates in Your Practice

Immunization levels in the United States are high, but gaps still exist, and providers can do much to maintain or increase immunization rates among patients in their practice.

Office Strategies for increasing childhood immunization rates:

- Implement reminder / call system for immunizations.
- RN/MA verifies with parent at every visit that immunizations are up to date.
- Schedule next appointment before leaving office.
- Give parents an immunization schedule so they know at what age they need to bring in children.
- Consider standing orders for immunizations.
- Document immunizations given in hospital (i.e. first Hepatitis B)
- Encourage parents to bring in immunization records from all other offices/clinics.

Most parents believe in the benefits of immunization for their children. However, health care providers may encounter parents who question the need for or safety of childhood vaccines. Such parents may choose to delay or forgo immunizing their children with some or all of the recommended vaccines. Effective, empathetic communication is critical in responding to parents who are considering not vaccinating their children. Parents should be helped to feel comfortable voicing any concerns or questions they have about vaccination, and providers should be prepared to listen and respond effectively.

2009	73%	76%	≥75%	★
2010	62%	NA%	≥77%	

OFFICE EDUCATION

- Implement reminder/call system for immunizations
- RN/MA verifies with parent at every visit that immunizations are up to date
- Schedule next appointment before leaving office

THANK YOU! Special thanks go to Dr. Reda, Dr. Hayes, and Dr. Jung, for making the “Top Performers Results” list for ALL thresholds in the BCBS Childhood Immunization Project for 2010. In addition, we would like to thank Dr. Preston for making the Hep A and Flu threshold.

We appreciate your continued support and cooperation with the BCBS projects.

BCBS 2011 1st QUARTER PROJECTS IN PROGRESS

- Colorectal Cancer Screening PAST DUE
- Cardiovascular Conditions DUE 4/29/11

Q-TIPS CORNER

- Remember to use Childhood Immunization toolkit as a resource for the CIM project. The toolkit includes information on: Talking with parents about vaccines, documenting parental refusal, and understanding the risks and responsibilities of not vaccinating.
- When you receive the CIM outreach lists: verify member has received all recommended vaccines, if not contact parents to schedule appointment.
